

Ingrid Daubechies (1954 -)

Ingrid Daubechies is a Belgian physicist/mathematician who has made seminal contributions to the theory of wavelets as well as the applications of wavelets to image compression.

Chapter 3 Relations

- Section 3.1 Relations
- Section 3.2 Order Relations
- Section 3.3 Equivalence Relation
- Section 3.4 The Function Relation
- Section 3.5 Image of a Set

order

total partial
equivalence
injection sets bijection
of functions relation
images relations

"There is no branch of mathematics, however abstract, that will not some day be applied to phenomena of the real world."

... Nikolai Ivanovich Lobachevsky
